VISTRA (Cyprus) Limited - A Brief History

Vistra's roots in Cyprus go back to 2005 when Arjan Schaapman and Adriaan Coppens, two Dutch nationals founded ACSA corporate services in Limassol. They quickly identified the tremendous opportunities that Cyprus has to offer for international business companies, especially after the EU accession of Cyprus.

Arjan has over 12 years' experience as a senior tax lawyer with Loyens and Loeff in the Netherlands and the Netherlands Antilles. After his return to the Netherlands in 2004, he specialised in Cypriot tax law. He is a frequent speaker in seminars and a publisher of several articles on international taxation. Arjan graduated in tax law at the University of Leiden in the Netherlands and also completed a higher business economics study in the Netherlands.

Adriaan graduated as a tax lawyer at the University of Groningen, the Netherlands. He gained over 7 years' experience in various functions within ABN AMRO Bank and Trust in the Netherlands, the Netherlands Antilles and in Luxembourg. During this period, he has been assisting clients from all over the world in setting up and managing their international structures, giving him a broad knowledge of requirements and rules in various countries.

In April 2008 ACSA joined the Vistra Group, a global independent provider of trust and corporate services.

Our global team understands that clients are varied and diverse; for that reason we take pride in a personal approach. This high level of customer service is combined with the Vistra global network which enables our professionals to draw on the resources of strategically located offices. We distinguish ourselves through our expertise and our vision that we should be adding value in fulfilling the client needs.

Together, we bring to life the Vistra ethos of "Crossing Borders, Creating Solutions".
