

About Vistra Taiwan

Introduction

Taiwan (formerly known as the "beautiful island"), located off the southeast coast of the Asian continent at the western edge of the Pacific Ocean, between Japan and the Philippines and right in the center of the East-Asian island arc, forms a vital line of communication in the Asia-Pacific region. It covers an area of approximately 36,000 square kilometers (14,400 square miles), one of the world's 38 largest islands.

Taiwan's current population of about 23 million is mainly composed of the Han and Taiwan indigenous peoples. Taiwan boasts geographical and historical uniqueness with a long tradition of democratic politics and social stability.
