

Act. Recover. Thrive.

How you can deal with today, and prepare for tomorrow.

When the world is changing daily, you need to focus on your core business and navigate through a turbulent economy.

As the saying goes ‘uncertainty is the only certainty’ – and that has never been truer than right now. The spread of COVID-19 and the unpredictability of the future presents significant challenges to businesses and markets around the globe. The impact is far reaching – from disrupting economies on a global scale, impacting supply chains and consumer behaviour, to emergency legislation and altered regulation – its effects will linger.

All businesses will be affected in different ways at different times. Vistra works with clients via a unique three phase approach to mitigate and address the economic, operational or regulatory impact which businesses are facing now, and over the coming months: Act, Recover and Thrive.

Act | Manage your business through disruption

When the world is changing on a daily basis, you need to focus on your business and how to survive a tumultuous economy. We're here to support you through this and help you come through the storm.

Our compliance team keep track of any statutory, regulatory, and legislative change and proactively advise on how to implement and stay compliant. Our specialized company secretarial team makes sure you have full control of your international operations, so wherever in the world you can be sure that you have everything you need in place. We also have a team of high qualified accounting and tax professionals all over the world who look after management accounts, financing statements and tax reporting.

Recover | Strengthen and rebuild operations and finance

All corporate structures can get impractical and inefficient over time. Rationalising and simplifying structures and service providers will keep your business in shape. Vistra can help you:

- **Build** efficient operating structures
- **Improve** operational transparency
- **Reduce** costs & governance burdens
- **Align** assets and resources ready for sale

And we don't just advise – we execute on that advice and underpin with leading technology platforms.

Thrive | Create competitive advantage for the upturn

Your business is ready to thrive in the new world and seize competitive advantage.

Whether you need to establish a legal entity, divest, create or reform corporate structures, stand up a management accounting function, hire or transfer employees or just run payroll and fulfil local employer obligations, you need a professional and reliable partner.

Or perhaps it is time to grow and expand. We act as an extension of your in-house accounting team delivering management accounting and transactional payment support. Through a combination of our global experts and on-the-ground specialists, we can advise you on everything from expanding into new markets to keeping your business up to date with changing regulations in multiple jurisdictions. Wherever you want to do business, Vistra can help you get started quickly and successfully.

Building greater resilience during times of crisis

Through our global reach, we can offer support you across the world. Led by our team of experts, we create bespoke multi-country solutions dictated by operational requirements.

Whether the focus is on managing through the immediate disruption, strengthening and rebuilding operations or creating competitive advantage, Vistra can help you seize the opportunities, deal with today and prepare for tomorrow.
