

A large, abstract background image of a canyon with smooth, undulating rock walls. A bright orange light source, possibly a fire or a lamp, is visible in the distance, casting a warm glow on the surrounding rock surfaces. The image is partially obscured by a dark red, curved shape in the top left corner.

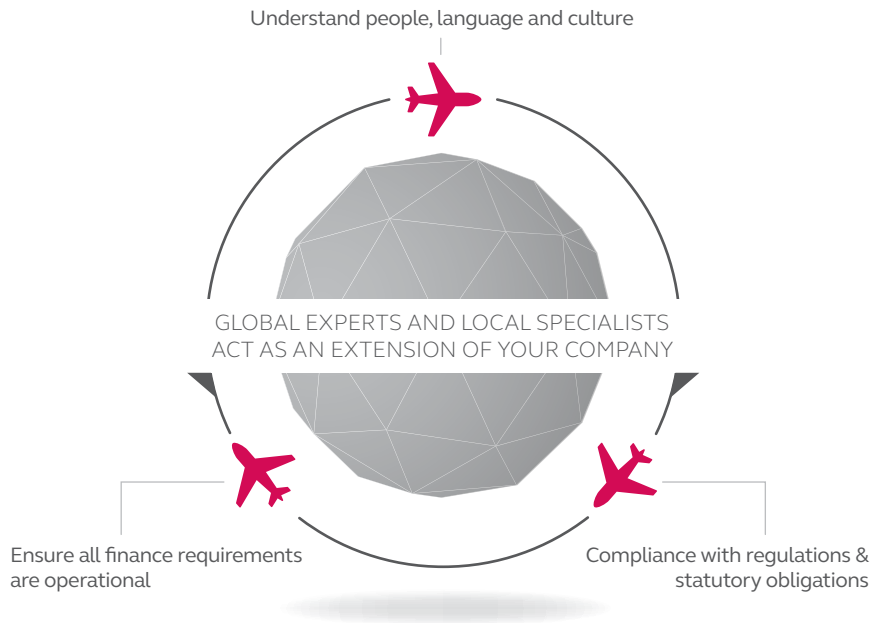

## Grow | International expansion & operational support

Expand overseas and reduce your operational risk.

To make the most of today's global economy and navigate complex international operations, you need a trusted partner to make sure that risks associated with international expansion are reduced for your new or growing ventures and that they are compliant and efficient. Allowing management to focus on the business, knowing they are getting better control, can give you greater confidence that your ambitions will be achieved.

On our secure technology platform, we can get you up and running in places with languages, cultures and rules that are unfamiliar to you. We can help with structuring and managing your statutory, regulatory and legal obligations as well as paying and managing new employees.

We act as an extension of your in-house accounting team, delivering management accounting and transactional payment support. Through a combination of our global experts and on-the-ground specialists, we can advise you on everything, from start-up to keeping your business up-to-date with changing regulations in multiple jurisdictions.
